SPECIALTY GLAZING

Unicel has built its reputation on Vision Control®, a unique patented sealed glass unit with operable louvers that provides a wide array of solutions to vision, daylight, heat and sound control, for utmost privacy, hygiene, and security.

Thanks to its great thermal performance and its operational capabilities, Vision Control® offers significant energy savings, which result in an important decrease in capital cost and annual operational energy cost.

Predominantly used in healthcare facilities and institutional environments (schools, museums, auditoriums, banks, offices etc.), Vision Control® provides unlimited design options for both exterior and interior use, and can adapt to a multitude of applications.

APPLICATIONS

INTERIOR PARTITIONS
DOORS
SKYLIGHTS
