## Unicel Architectural provides sealed glass units with integrated louvers to Cincinnati Children's Hospital Medical Center

**MONTREAL, Canada – September 25, 2013** – Unicel Architectural recently marked six years and over 15 installation projects featuring its award-winning Vision Control® hermetically sealed glass units with integrated louvers at the Cincinnati Children's Hospital Medical Center (Cincinnati Children's). Cincinnati Children's is ranked #1 for neonatology and in the top 10 for all pediatric specialties in the United States.

"Cincinnati Children's began installing our Vision Control® integrated louvers in 2007 for adjustable patient privacy and optimal hygiene," said Jean-François Couturier, CEO of Unicel Architectural. "Today, Vision Control® is featured in interior installations in multiple buildings throughout the Cincinnati Children's campus. There is no greater validation for us than being the longtime privacy solution of choice for one of the nation's leading hospitals."

Working with Custom Glass & Glazing, LLC and Geiger Vision LLC, Unicel supports high standards for excellence. The Vision Control® units eliminate the need for curtains, blinds and other dust-collecting privacy solutions for a hermetically sealed and more hygienic solution. Vision Control® is HIPAA-compliant and a winner of *The Architects' Choice Award* from the National Symposium on Healthcare Design.

### About Unicel Architectural

For 50 years, Unicel Architectural has built a reputation for the most advanced aluminum and glass solutions. These solutions encompass louvered glazing, skylights and more, to enhance major global construction initiatives with utmost quality and reliability. With its proprietary technology, Unicel's Vision Control® delivers unprecedented comfort and control of vision, light, temperature and sound with a patented combination of louvers between glass that are hermetically sealed and cordless. Unicel's solutions are guaranteed for longevity, optimized for energy efficiency, and customizable to any design, environmental or cultural requirements. Unicel combines its market leading know-how with great design to ensure optimal aesthetics and sustainable performance.
