1. Aluminum profiles with concealed fasteners (no visible screw or bolt)
2. Rain-screen system providing proper drainage and ventilation
3. Polyurethane sealing joint providing hermetic shield against air and vapor infiltration
4. Possibilities of single, double, triple or Vision Control® glazing (1/8" to 3" - 3mm to 76mm)
5. Pressure plates and covers of various shapes for diverse combinations
6. Thermal break between interior and exterior profiles provided by PVC barriers
7. Stainless steel screws concealed under aluminum covers

In accordance with the following standards:

Air tightness: ASTM-E283-84
CAN/CSA-A440-M90

Water tightness: ASTM-E247-86
CAN/CSA-A440-M90

Uniform load: ASTM-E330-84
CAN/CSA-A440-M90
