**Installation Instructions for Vision Control® Door Lights with Trims**

**Step A**
- Remove snap-on molding at perimeter.

**Step B**
- Snap-on top molding.

**Step C**
- Blocking (if required) by others.
- This side should be held in place by a worker to prevent the units from falling out.

**Step D**
- Snap-on bottom molding.
- Plastic blocking.

**Step E**
- Door by others.

**Step F**
- Codex glazing (see Step G).

**Step G**
- Codex glazing installation viewed from interior side.

*Vision Control® is furnished factory-glazed in Unicel® aluminum trims for 1 3/4" (44mm) thick doors.*
